

Circular 095:08:07

To: Club Captains Club Treasurers
Club Gear Stewards

Cc: Club Secretaries Regional Officers

From: Greg Scott
Support Officer – Lifesaving Services

Date: 17 August 2007

Subject: Purchase of Radio Equipment

Action:

Please find attached details of radio equipment currently available for purchase through Life Saving Victoria. All pricing is valid for the 2007 / 2008 Season.

A purchase order from the club / service will be required prior to processing taking place.

Clubs should consider the need to upgrade handheld radios. To take full advantage of the new radio network all radios will require a minimum of 16 channels and a number of other programmable features. Clubs should consider whether their current units fulfil this need when applying for grants.

There is the potential that in the near future we will have the ability to block radios not programmed by Life Saving Victoria, and encourage clubs to be sure to make use of the discounted pricing.

Orders need to be placed through Greg Scott at Life Saving Victoria.

For additional detail on this Circular contact:

Greg Scott, Lifesaving Services, Support Officer,
